## EMPLOYMENT SCREENING

Dear Client,

Thank you for your interest in our Drug Screening services. Orca worked hard to make drug testing easy and seamless by partnering with 4000 + drug-testing sites throughout the United States. With multiple locations available drug testing will be quicker and easier to complete. There are three attachments with the details. We know you will be impressed. But first here is an overview of the services.

### **There are three types of drug screening available:**

- Pre-employment,
- Post-accident
- Random

**Standard urine testing from 5 to 10 panels - \$45 regardless of panel type**

**All positive hits receive a full medical review by a board-certified doctor.**

### **8 SIMPLE STEPS! Here is a brief description of how the medical review process works:**

1. You log onto your home screen on our website.
2. Then email an invitation to the perspective employee.
3. You can decide the location of the lab, date and time of testing.
4. You can set preferences to include a time frame when you need the applicant to complete the drug-screening.
5. As an alternative, you can give the applicant the option of choosing the lab most convenient for them. They would then schedule their own appointment.
6. Once the appointment has been scheduled, the applicant will receive via Internet what is called a "Donor Pass". They can print it out or keep it on their cell phone.
7. The applicant takes the Donor Pass into the lab location and the drug-testing takes place.
8. You will be notified of the results by logging onto our website.

We believe you will find this a fantastic solution for drug testing. Feel free to contact me for more information.

Sincerely,

Rebekah Near
